

# **Human Exposure to Trace** Organic Contaminants in Asia

**Guest Editors:** 

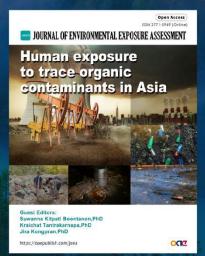

Dr. Suwanna Kitpati Boontanon Department of Civil and Environmental Engineering, Faculty of Engineering, Mahidol University, Nakhon Pathom,

Technology, School of Public Health, Walailak University, Nakhon Si Thammarat, Thailand.

Dr. Kraichat Tantrakarnapa Department of Social and Environmental Medicine, Faculty of Tropical Medicine, Mahidol University, Bangkok, Thailand.

## **Special Issue Introduction**

Many trace organic contaminants have been associated with adverse effects on human health and the environment. Industrialization and urbanization have magnified the problems of trace organic contaminants in environmental matrices (water, land, soil, air, etc.). Knowledge of fate, transport, environmental pathways, exposure mechanisms, and health effects of exposure to trace organic contaminants is lacking, especially in Asia.

This Special Issue of *Journal of Environmental Exposure Assessment* will address human exposure to trace organic contaminants in Asia to fill important knowledge gaps in this area. Topics of interest for this special issue include (but are not limited to):

- Targeted analysis and non-targeted screening of trace organic contaminants
- Biomonitoring and environmental monitoring of trace organic contaminants
- Experimental or modeling-based assessment of human exposure to trace organic contaminants
- Environmental impacts of trace organic contaminants in the environment
- Determination of exposure pathways
- · Bioavailability and bioaccessibility of trace organic contaminants
- Associations between environmental exposure and health outcomes
- Health effects of trace organic contaminants and the underlying mechanisms

Experimental papers, epidemiological papers, up-to-date review articles, systematic reviews, meta-analyses, as well as commentaries are all welcome.

Submission deadline: 31 Dec 2022

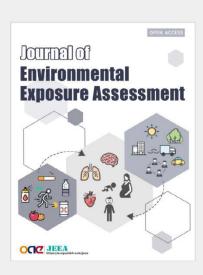

#### **Benefits to Authors**

- The APCs (\$600) will be WAIVED;
- Provide Language Polishing Service by Native English Speakers. The fee is undertaken by the journal;
- Enjoy faster publication than regular submissions;
- Authors will be invited as Guest Speakers to our journal webinars. The webinar will be held via Zoom and it will also be broadcast live on Youtube and the Chinese WeChat Official Account, Video Account, Bilibili:
- A special interview will be provided to authors and will be promoted on the journal homepage and all media promotion platforms of both via the journal and publisher;
- Winner(s) of the "Best Paper Award" will be awarded. The reward will be in the form of a cash prize and a certificate.

## Journal Introduction:

Journal of Environmental Exposure Assessment (JEEA) is an international peer-reviewed, open access journal. JEEA aims to be one of the preferred journals for publishing high-quality research by experts in this area. The journal is founded by OAE Publishing Inc., under the guidance of our Editor-in-Chief Professor Stuart Harrad (University of Birmingham, UK). JEEA was officially launched on July 28, 2021, and the first issue has been released online in January 2022. Looking forward to your attention and cooperation!
