In 2024, *EVCNA* reached remarkable milestones, achieving indexing in two prestigious international databases: ESCI (Web of Science) and PMC. These accomplishments would not have been possible without the unwavering support of researchers devoted to the growth and success of *EVCNA*. The *EVCNA* Editorial Office extends its heartfelt gratitude and sincere appreciation to the reviewers [Table 1] who generously dedicated their time and expertise to evaluating manuscripts throughout the year. Your invaluable contributions, regardless of whether the reviewed papers were ultimately published, have been instrumental in upholding the quality and integrity of our journal. Thank you for your exceptional commitment and efforts!

The invaluable contributions of our expert reviewers are central to the journal's editorial decision-making process. As a gesture of gratitude, we established individual reviewer accounts in the submission system in 2024. These accounts enable reviewers to access details of their past reviews, view comments from fellow reviewers, and download letters of acknowledgment for their records.

To further express our appreciation, the Editorial Office has selected two exceptional individuals as the "2024 Best Reviewers." Each awardee will receive a prize of USD 350, with the winners to be announced in March 2025.
