MAIN TEXT

Correction to *Soft Sci* 2024; [10.20517/ss.2023.39](https://doi.org/10.20517/ss.2023.39)

The originally published article^[1] was classified as a Commentary. However, upon further evaluation, it was found not to meet the typical criteria for this article type, which is generally reserved for critiques or discussions of recently published works or alternative viewpoints, as outlined in the journal's author guidelines.

After careful review, it has been determined that the appropriate classification for this manuscript is Mini Review. The article type has therefore been corrected in the journal's records and online publication.

We apologize for any confusion this may have caused. The scientific content and conclusions of the article remain unchanged.
